

Dear comrades of the League of Young Communists USA,

The Connolly Youth Movement and the young communists of Ireland wish to extend our warmest fraternal and comradely greetings on the occasion of your second Annual Congress. It is heartening to see the continued development of the League of Young Communists USA and your comrades in the Party of Communists USA, as torch bearers of principled Marxist-Leninist politics at the heart of the imperial core.

The world needs uncompromising young communists as we face the seemingly never ending crises of capital: sky high inflation and flat wages, imperialist war mongering in Ukraine and Taiwan, and the rise of the far right in both North America and in Europe.

As the heart of global capital, the contradictions in the US are sharpening to a razor's edge and you are perfectly placed to agitate, educate, and organise for true change and liberation for the American people.

We sincerely hope for more dialogue and cooperation between our two organisations as we move onward towards the red decade.

Long live the anti-imperialist struggle!

Long live the LYCUSA!

Is muid le meas,
An Óifig Idirnáisiúnta
Ógra Uí Chonghaile

Our best regards,
The International Office
Connolly Youth Movement
